Converting your waste and bringing it back to life

110 North Mill Road • Vineland, New Jersey 08360 • Toll Free (800) 636-8625 • giordanosrecycling.com
New Jersey’s State of the Art Scrap Metal Recycling and Material Processing Facility

specializes in the processing of scrap materials for recycling purposes.

Our New Jersey scrap metal and waste paper recycling facility since 1948 and 8 decades of operational experience is well-equipped to separate, sort, and bale all types of recyclable and waste materials, such as non-ferrous and ferrous metals, high temp alloys, plastics, cardboard, and waste paper. We also offer raw material recycling drop-off in exchange for cash!

As New Jersey’s most modern recycling facility, our capabilities are virtually unmatched by the competition. Our abilities include:

- Recyclable Material Baling.
- Computerized Scrap Material Scales.
- Photo Documentation of the Scrap Material Recycling Process.
- State of the Art Material Inventory Control.
- Giordanos has GPS on every one of their trucks.
- Giordanos has 24 hour recording and totally secure fenced in facility in its home town.
- Proven security control to ensure confidential disposal.
- Establishment of company-wide procedures that demonstrate a regular pattern of secure disposal for all commodities.
- Containers arrive at Giordanos for same day secondary destruction at our gated and camera-monitored facility.
- Itemized Certificates of Destruction are returned to the customer for audit and record-keeping purposes.

Benefits of Working with Giordanos

- Customizable service plans.
- Compensation for your commodities.
- Reduction of waste disposal costs which creates significant savings.
- On-site training for your staff.
- Develop a “GREEN” corporate image.
- Recycling and waste equipment installations for commercial, government and residential.

Show you care about the environment and create a positive corporate “GREEN” image while staying focused on your bottom line. We want to help with your recycling and waste removal needs. Consolidate your local recycling programs and create a much more efficient, local and national program. Enjoy the benefits of dealing with a single company and by working with Giordanos on a local & national level, your company can profit from our global connections. Save trees, the environment and money. Being “GREEN” can work for you!

With our own facilities and a network of partners all across North America & Worldwide, Giordanos has the resources to recycle and manage your waste items anywhere.

METAL • PAPER • PLASTIC • ALL WASTE COMMODITIES, ANYWHERE!

Vision:

Giordanos Recycling will be a long-term reliable buyer and service provider for all recyclable commodities including: metals, paper, plastic, waste removal and much more.

Mission:

With so many industries claiming “GREEN” benefits, environmentally conscious customers want assurances that these claims are supported with action. Giordanos Recycling understands that every customer is uniquely different and we are committed to providing our customers with specific sustainable recycling and waste handling solutions that will work now and for generations to come. Our long-term goal is to divert from the landfills and recycle 100% of our customer’s waste stream with a “zero waste initiative.”
